## Load Manager -

is a user friendly Load Management tool for transport companies that need to know. This program determines the load on each axle group by calculating the effect of tare weights and litres of chemicals loaded into one or two trailer compartments, while considering the mass program (Standard, Pilot or NHVAS). All submitted data is saved and tamperproof.

**LOAD MANAGER** **B-Double** v5.00

DATE: 26-May-05 Loading Depot: C Newport Rego: Vehicle: RFS: Statutory No.

Job No.: 0 Prime Mover: 1140 0 Kenworth T601 5918 0 0

CUSTOMER: 0 Trailer 1: 11028 0 Marshall Lethlean BT2 0 0

Program: Statutory Trailer 2: 12028 0 Marshall Lethlean BT1 0 0

The Max Load by Tare Weights is 42078 kg by volume 66900 Ltr 62.26

T1 Product	Amount	Kg/Litre	Order	T2 Product	Amount

Weights (kg)	Calc'd	Program Target	Program Vary
Steer	5918	6000	-82
Drive	16300	16300	0
Triaxle	20000	20000	0
Triaxle	20000	20000	0
GCM	62418	62500	-82
		82	99.87

Comments / Instructions: **Payload 42078 Total Litres 42078**

### Load Manager Attributes

- Focus on all gross and axle groups
- Validation of load planning
- Validate actual load (weighbridge)
- Secure / tamper proof
- Export 12 months data for audit
- Maintains auditable database
- Proof for COR activities
- Productivity and KPI reports
- Can email to responsible manager
- Instant results & auditable evidence
- Can incorporate Truck Optimiser

### Benefits of Load Manager:

- Provides solid tamper proof evidence
- For Rigids, Prime Movers, B-Doubles
- Chain of Responsibility is covered
- Little training required, no special computer
- Push one button to maximise loads

- Significant productivity gains – increased loads and vehicle set up to achieve the maximum load
- Reduced weighbridge dependence
- Can test and validate mass loading plans
- Mass Accreditation Scheme reports
- ‘Stand by You’ support from Burgewood

### What do you need to run it?

- Any computer with Excel®
- Anyone who uses Excel®
- Anyone who understands loadings
- About 30sec per vehicle
- No special equipment
- No in-depth costly training
- No expensive software
- No financial risk

**Reporting** - Load Manager can provide auditable reports for internal and external auditing; including monthly reports required by accreditation conditions.

- Emails to your management to keep everyone informed.

**Other Modules** - Available from Burgewood Pty Ltd -FMS Calculator (Driving Hours validation); Truck Optimiser (Mass and Dimensions analyser); Load Restraint (ready reckoner); Permit Reminder (email / calendar reminding system)

**Burgewood Pty Ltd installs the program, trains your personnel, provides help desk facilities (on site if required) and upgrades – including those required by regulation changes – all included in a monthly subscription**
