## FMS Planner -

is a user friendly drive/work/rest planner for the National Driving Hours Regulations. Simple inputs make the complex task of planning a driver's day (or week) simple and easy. The FMS Planner can take driver's history into account and provide an accurate plan of when a driver can drive and when a driver must rest.

01/04/07						
	Start Times	End times	Work	Location	Breach	Hours
Rest	0.00	7.00				7.00
Drive/ Work	7.00	12.15	0.30	Tamworth	1	5.25
Break	12.15	12.45				0.50
Drive/ Work	12.45	17.25		Wagga Wagga		4.67
Break	17.25	17.40				0.25
Drive/ Work	17.40	19.30		Seymore	1	1.83
Break	19.30	24.00				4.50

FMS Planner for single day (see left) is simple as thinking about where you will be and when, the example left shows putting in planned times will indicate if there is a breach – so it can be planned out; it also show locations

**What the Breaches Mean**

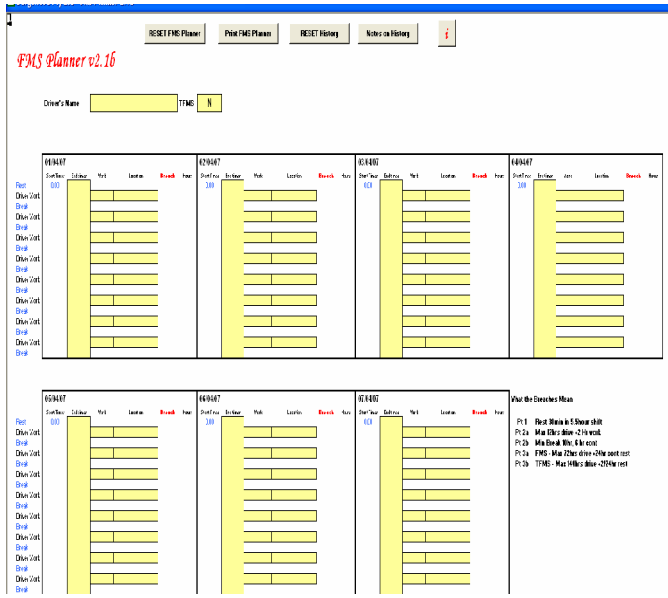

- Pt 1 Rest 30min in 5.5hour shift
- Pt 2a Max 12hrs drive +2 Hr work
- Pt 2b Min Break 10hr, 6 hr cont
- Pt 3a FMS - Max 72hrs drive +24hr cont rest
- Pt 3b TFMS - Max 144hrs drive +2/24hr rest

**Benefits:**

- Provides solid tamper proof evidence
- Simple system with low compliance cost
- Peace of mind, reasonable steps defence!

**Operation:**

- Any PC with Excel
- Best if used with FMS Calculator
- Training is simple and quick and can be done over the phone
- Provides confidence to protect you, your customer and your company

Burgewood Pty Ltd installs the program, trains your personnel, offers free help desk and upgrades – including those required by regulation changes

**FMS Planner does not change your requirement under COR to validate actual driving hours**
